

EVENT WRAP-UP

2nd Annual Air Delivered Effect BAA

UNIVERSITY DAY 2023

21 JUN 2023

Event Description

Doolittle Institute (DI) facilitated the ARFL/RW annual Air Delivered Effects Broad Agency Announcement (BAA) University Day on June 21, 2023. In the leadup to the event, the DI staff reached out to academic contacts in the innovation ecosystem with new distribution lists that included the top 200 U.S. Science and Engineering Colleges and Universities, Historically Black Universities and Colleges (HBCUs), and Minority Serving Institutions (MSIs). The efforts also involved contacting technology transfer contacts at regional universities, and R1 and R2 universities. The selected research areas received nine submissions. During the event, five universities presented their proposed research to scientists, engineers, and contracting specialists from AFRL/RW. As a result, four different universities were awarded \$100k contracts on the day of the event.

Event Outcomes

- 9 submissions
- 5 University presentation
- 4 \$100k contracts awarded
